

paragraph (e) of this section, may result in termination of the tax deferral privilege.

(2) *Tax deferral legend.* Each bond issued in a tax-deferred exchange bore a legend showing how much of its issue price represented interest on the securities exchanged. This interest must be treated as income for Federal income tax purposes and reported in accordance with paragraph (g)(1) of this section.

(3) *Reporting of interest paid to owner.* To the extent that it represented interest earned on the securities presented for exchange, an amount paid to an owner in accordance with paragraph (d) of this section was reportable as income for Federal income tax purposes for the year in which it was paid. Pursuant to 26 CFR 1.6049.4, a paying agent was required to report interest income of \$10 or more included in any amount paid in an exchange transaction to the payee and to the Internal Revenue Service on Form 1099-INT or an approved substitute. A separate report was permitted to be made for each exchange transaction in which interest in the amount of \$10 or more was paid, or all interest paid in both cash redemption and exchange transactions was permitted to be aggregated and reported annually should the total amount be \$10 or more.

(h) *Exchanges without tax deferral.* The rules prescribed for exchanges under paragraphs (a) through (f) of this section also applied to exchanges by owners who report the interest earned on their bonds of Series E and EE and savings notes annually for Federal income tax purposes, or elect to report all such interest that was not previously reported for the taxable year of the exchange. Series HH bonds issued in a nontax-deferred exchange were required to show a "0" in the tax-deferral legend.

(b) *Rules.* The reinvestment transaction were subject to the rules governing exchanges, as set forth in § 352.7 of this Circular, and the Series HH bonds issued on reinvestment were identical in all respects with those issued in a non-tax-deferred exchange.
